Best Practice during the session 2017-18

Practice-I

Title of the Practice: Tree Plantation Programme

Objective of the Practice

The main Objective of the Practice was to provide eco-friendly environment in premises and pollution free campus. The NSS Unit organised the Tree Plantation Programme in every year. Tree Plantation helps to provide the Green landscaping in huge area of our premises. It also beneficial for pollution free campus.

The Context:

As many students learning in the college premises, fresh air is needed for good health. It definitely helpful for better environment in our college premises.

The Practice

- Tree Plantation Programme undertaken by the NSS Department every year during the monsoon season.
- Various types of big and small plants planted in different area.
- The Tree plantation needs regular care for watering of plants.

Evidence of success:

There are hundreds of big and large Neem, Ashoka, Banyan trees etc., are growing well in our premises. Many flower plants spreads colours and pleasant fragrances, it makes very beautiful scenes in our premises.

Problems encountered and Resource required:

In summer season due to sunny days' plants needs more water to survive therefore the ground water pumps arranged for watering the plants and trees.

Practice-II

Title of the Practice: Blood Donation Camp

Objectives of the Practice:

- To provide donating blood to the needy in time.
- To provide information about the Blood Groups and importance of Blood Donation
- To inculcate the feeling of helping others to save life with their precious drops of blood.

The Context:

Blood Donation Camp organized by the NSS Department on the occasion of International Women's Day on 8th March 2018 in collaboration with Dr. Shankarrao Chavan Government Medical College & Hospital, Nanded. The college provides all facilities such as Blood group testing room, blood donating rooms as per the medical standards. The Camp is addressed by the Female Doctors and other subject experts to make the students to understand the information about the Blood groups and importance of blood donation.

The Practice:

1. On the occasion of International Women's Day blood donation camp is undertaken by the unit of NSS.
2. Around 20 bags of Blood collected every year.
3. For the year 2017-18, total 20 blood bags were collected.
4. The female Doctors and subject experts guides girl students and encourage them to donate blood.

Evidence of Success:

Every year near about 20 bags of blood collected. College Staffs as well as students also participated in the Blood Donation Camp. Whenever the blood required to person, the blood bank supplies blood timely to that needy person.

Problems encountered and Resource required:

As per the world health organisation, Southeast Asia estimated blood requirement is about 16 million units per year but only 9.4 million units every year. Everyone should donate blood time to time and help the nation.
